

## A Crystal clear fog free Mirror

The Luxury of having a fog free mirror is the icing on the cake. No more wiping the mirror to shave, apply makeup or check that morning fresh look as you finish your bath or shower. Your bathroom will always have the fresh and sparkling look you have always wanted.

## Working Principles

Mirror defoggers are self adhesive electrical heated pads that can be installed. At the back of any size or shape of mirror, defoggers are simple electrical heaters, engineered to warm the mirror. The warmth penetrates and Clears the surface of the mirror.

## Features

### Easy to fit

Peel off the cover and stick it to the back of the mirror. Connect the electrical cable.

### Safe to use

Heating pads are double insulated. The heat is regulated and will never result in overheating even if left on for hours.

### Economical

The running costs are minimal. An average cost between 5 to 10 Rs. per week.

### Quickly warms

It takes 2th 3 minutes to warm up and clear the surface of the mirror.

### Simplicity

Just wire it into the light circuit.
